

URGE FOREIGN SERVICE BOARD AT CAPITOL TO FOSTER U.S. TRADE

SCHOOL TO AID TRADE PROPOSED

SAN FRANCISCO, May 13.—"Foreign Trade Policies" was the topic of the third general session of the seventh annual convention of the National Foreign Trade Council, which opened this morning at the Civic Auditorium. Four group sessions on special foreign trade problems were held last evening following the first two general trade sessions in the main auditorium during the afternoon and evening.

This afternoon was devoted to a continuance of the group sessions, the group topics being: "Direct Selling Abroad," "Banking Service to Foreign Trade," "Trade With the Orient," and "Trade With the West."

This evening will also be devoted to group sessions as follows: "Foreign Trade and the Press," "Foreign Credits and Credit Information," "American Trade With Russia," and "Foreign Trade Information."

The speakers at the morning session today included Henry Suzzallo, president of the University of Washington, who addressed the trade leaders on "American Organization for Foreign Trade"; C. H. Whittemore, of the American Chamber of Commerce at Buenos Aires on "The Work of the American Chambers of Commerce Abroad"; A. R. Hager of Shanghai on "Federal Incorporation for Foreign Trade"; Robert H. Fitch of Chicago on "The Need of a Bargaining Tariff"; and W. W. Nichols of the Allis-Chalmers company on "Reorganization of the Government Service of Trade Promotion and Information."

Persistent publicity in the moulding of a public opinion favorable to a strong United States foreign trade is the need of the moment in the opinion of Nichols, who was last to speak at the morning session.

"To hold our own in our dealings with foreign nations," said Nichols in his address, "our government agents must be competent to meet every situation. Such knowledge does not come by native intuition and cannot be expected in the provincial, who too often in the past has been called upon by partisan preference to represent and protect American interests abroad."

Our first step is to arouse a powerful and insistent public sentiment everywhere favorable to a reorganization; then reorganization will follow inevitably. Concentrated action at Washington may fail to aid foreign trade, but positive public opinion cannot fail to do so.

"Of first importance is the serious absence of teamwork in the operations of the government departments concerned. The whole success of our organization awaits our ability to create a career. Salaries comparable with duties performed should be provided with prospects of promotion and pensions at all times to incite diligent attention and initiative."

Nichols recommended the establishment of a government educational institution similar in plan to West Point and Annapolis academies for the training of candidates for the consular service. Graduates from the college under his plan would be

WILLIAM C. REDEFIELD, who will speak tonight before trade convention.

already secured, we will be in the best sort of position to extend and expand."

Whittemore detailed the work of the American chambers of commerce in foreign cities, declaring their greatest work has to do with arbitrating between foreign importers and American exporters. He said the old line concerns which have been doing business under their own names in South America for years are so thoroughly established in the home confidence that they are looked upon as local commercial institutions, "whereas the houses that have recently entered the field are considered as consulting American trade extension."

Errors made in good faith lead to complications just the same and are none the less costly, he said. He urged an understanding of foreign terminology and adequate support for the chambers such as the one he represents.

China and Russia are the great markets for American goods for the future, according to H. A. Oudin, vice-president of the International General Electric Company. He pointed out that the Chinese markets were great fields for American manufacturers. Whatever effect the Lamont mission would have on China's buying power Oudin declared the ultimate result would strongly benefit American manufacturers. "Whatever expansion could not be looked for," Oudin said there was no single factor all-important, but that shipping, long-term credits and opening of American markets were equally important in American trade expansion.

TOMORROW'S PROGRAM

At Civic Auditorium, 10 a. m. "The Merchant Marine," Address: "American Maritime Policy," by William H. Knox; "American Marine Insurance," by Hendon Chubb; "Fuel Oil and Foreign Trade," by A. C. Bedford; "American Coal and Its Relation to Foreign Trade," by E. J. Enney; and "Marine Securities," by John E. Barber.

Luncheon at St. Francis Hotel, 12:30 p. m. Informal luncheon given by advisory committee on International Parcel Post. Proposed postal extensions will be discussed by Otto Praeger, second assistant postmaster general.

Group sessions, 2:30 p. m. Group 12. Practical problems of the export manager in Room B. Address: "Training Export Salesmen," by W. F. E. Ayer; "Trade Mark Protection," by C. B. McKelvey; and "Survey of New

Markets" by E. Wilhelm Drosch.

Group 13. Webb Law in Operation by E. J. Bartels; and "Webb Law Association Management," by E. J. Judd.

Group 14. Pacific Problems. In Room C. Address: "Commercial intercourse with China," by John Poort; "Relation with the People of the Orient," by Robert Newton Lynch; "Handling Products of the Orient," by W. B. Henderson.

Group 15. Latin-American Trade Relations. Address: "Transportation, Tariffs, and Customs Conditions in Latin America," by F. E. G. Harper; "Financing Foreign Trade to Latin America," by Guy W. Wolf; and "Ocean Transportation," by Charles E. Brown.

Banquet at Civic Auditorium, 7 p. m. No formal speeches will be made. Special program arranged by local committee. Formal dress.

NEW ADVERTISING POLICY IS URGED

SAN FRANCISCO, May 13.—"Next to a fixed foreign policy on the part of our government, which I consider fundamental, I believe advertising will prove to be the greatest single factor in the development of our foreign trade," said Frank A. Arnold, in addressing the Foreign Trade Advertising group session of the National Foreign Trade Council last night.

"We stand in about the same relation to foreign advertising today as we did to domestic advertising 25 years ago. It is all before us—a wonderful opportunity full of tremendous possibilities for development, and with this advantage: that we have at our disposal the wealth of experience which has come from the last dozen years of intensive advertising in the domestic field."

The typical advertising agent is a genius, said Arnold, and his tools are human brains expressed in the skilled fingers of the engraver, the round phrases and clinching arguments of the college-trained writer, and the sound judgment of the experienced executive.

"All of this you have at your command in the domestic field and its value is too well known to need demonstration. Why hesitate when it comes to the foreign field, provided anything like an equivalent service is available? There are probably not over half a dozen agencies in the United States that have a foreign organization necessary for this work."

"Advertising Results," by J. G. Culbertson, and "Consuming Advertising Abroad," by W. E. Row, were the other addresses delivered before the advertising group.

Wives of Trade Convention Delegates Eastbay Guests

More than 150 women, wives of delegates to the seventh annual Foreign Trade Council convention in San Francisco, were guests of a committee of Eastbay women yesterday for a trip through Berkeley and the University of California, over the Skyline boulevard and to the principal scenic spots of Oakland.

The party arrived at the University of California in time to attend the commencement exercises and see diplomas presented to the largest class ever graduated from the world's largest educational institution. At the conclusion of the commencement exercises, the party motored over the Skyline boulevard, coming to the Claremont Country club for luncheon.

Miss Ethel Moore, Mills College trustee, was chairman of a committee of prominent Eastbay women for the entertainment of the visitors. In the afternoon the guests were taken to Mills College for an informal reception by the students and teachers.

Fifty delegates of the Chicago Association of Commerce will be the guests of the Oakland Chamber of Commerce tomorrow at a membership luncheon in the Hotel Oakland. John P. Howland and George M. Spangler, spokesmen for the Chicago delegation, will address the luncheon on "Why Oakland Is Going to Be the Greatest Manufacturing City in the West."

A proclamation in the interests of the Foreign Trade convention was issued to the people of Oakland by Mayor John L. Davis on the opening day.

GAS SHORTAGE GRIPS OREGON; PRICES SOAR

PORTLAND, Ore., May 13.—Automobile service stations and garages in several parts of Oregon today were reported low on gasoline, with few new supplies in sight. There is hardly a gallon of gasoline in Baker, Ore., reports said. In the Hood River orchard country, the gasoline famine threatens to tie up hundreds of power spraying machines. Albany garages, during the next three weeks are to be allowed only 40½ gallons.

Preference in gasoline sales is being given to patrons who need the fuel in industries. Gasoline jumped to a record price of fifty cents a gallon in Roseburg today.

Secretary Meredith Undergoes Operation

WASHINGTON, May 13 (United Press).—Secretary Meredith of the agriculture department is expected to return home from a local hospital, where he submitted to a minor operation a week ago.

ALAMEDA'S GUESTS
ALAMEDA, May 13.—Latin-American delegates to the Foreign Trade Convention in session in San Francisco, will be the guests of Alameda on Monday, when the visitors will be taken on a motor tour of the city. A group of Chamber of Commerce members will act as their guides and will take the delegates to the various industrial plants.

A plan is now under way to entertain the delegates at luncheon at Neptune Beach. Arrangements for this event will be announced tomorrow. Carl Strom, president of the Alameda Chamber of Commerce, will extend the official welcome of Alameda to the Latin-Americans, who will be brought here by Carlos De Berna, Alameda's delegate to the convention.

Do You Leave Your Energy At Your Office?

—Along toward the end of the afternoon, do you find yourself almost exhausted and finally drag yourself home devoid of any other interest but that of an evening's rest? Eye-strain may very easily be responsible for your condition, for the eyes, when not normal, are great expenders of energy and can produce a state of exhaustion equal to that of excessive muscular activity.

—Any interest in your personal health or efficiency should prompt you to give your eyes immediate attention if you have the slightest suspicion that they are not quite normal. Over thirty-two years of exclusive optical practice qualifies Chinn-Beretta to render you the best in eyeglass service.

OUR METHOD OF FIGHTING ANTS
Easy to Control Them with Argo Ant Poison

On account of the high price of sugar, we have been compelled to raise the price of our ARGO Ant Poison to 35c.

This store never reduces the quality of an article in order to keep down the price and inasmuch as Argo Ant Poison requires a very large percentage of sugar and as we have found that nothing else can be substituted, we feel justified in raising the price temporarily in order to enable us to give you the same grade as always.

This is the most successful preparation which fights Argentine ants that we know of. The formula was suggested to us by the authorities of the University of California and by Government experiments.

If you follow directions closely, there is no reason why you should have any trouble in your house with Argentine ants.

The method of combating them is a very simple one and can be easily carried out by anyone.

Put 35c you get a large bottle of the poison and one feeder can. Extra feeder cans 5c each.

It takes from 8 to 10 feeder cans for one yard of ordinary size.

MILK OF MAGNESIA
OF AN UNUSUAL QUALITY

You'll Appreciate It if You Try One Bottle

Milk of Magnesia is a splendid household preparation that is overlooked in many homes.

One reason why it is not more popular is because of the distasteful characteristics of ordinary Milk of Magnesia.

We put up, in our laboratories, a grade of Milk of Magnesia that seems to be more favorable in this respect than most kinds, in fact, several of our customers have stated that their children seem to be more willing to take Bowman's Milk of Magnesia than any other brand.

In its preparation, we use the best ingredients obtainable and make fresh lots frequently. If you believe that something of this kind would be a valuable addition to your medicine chest, we would suggest that you try Bowman's Milk of Magnesia, selling at 25c and 50c a bottle.

A GOOD REMEDY FOR POISON OAK

No Disagreeable Odor—No Stain

People who suffer from Poison Oak can obtain considerable relief and frequently a rapid cure, by the use of Taylor's Poison Oak Remedy. This medicine comes both in salve and liquid form and is the most successful remedy of its kind we know of.

We have sold it for a great many years and endorse it highly in all cases. Furthermore, if you will place this lotion upon your hands and face before going into the neighborhood of poison oak, you will find that it is a very successful preventative.

Of course no medicine has ever been devised that was a cure-all for every case of poison oak, but Taylor's Poison Oak Remedy seems to help a bigger percentage of people than anything else. 25c and 50c.

HERE ARE SOME OF OUR NEW PRICES:

We trust that you will take advantage of this opportunity to reduce, to a degree, the power of that greatest of all Trouble Makers, "HCL."

EDGE LAW AID TO U. S. EXPORTS

SAN FRANCISCO, May 13.—That the Edge law provides a timely and suitable means of continuing our exports is the opinion of Elmer H. Youngman, editor of Bankers' Magazine, expressed in an address for the finance group session of the National Foreign Trade convention here last night.

"The provision in the Edge law, which is not only novel but of first importance, is that which permits these corporations to issue their own notes and debentures for sale to investors," Youngman explained.

"The participation of the individual investor must be enlisted. In other words, we shall have to find some means of selling foreign securities, either directly or indirectly, to a large body of American investors. The Edge law gives us what is perhaps as good a measure for this purpose as could be devised. Its safeguards seem all that could be required in reason.

"We cannot reasonably expect that the average American, even if possessed of some experience with domestic securities, could have the knowledge of foreign investments which would enable him to discriminate between those which are sound or otherwise. But the Edge law corporations will relieve him of this responsibility. The investor who buys their debentures will be in fact buying an American security, the obligation of an American corporation, with foreign collateral.

"With the Edge law in operation, we can no longer plead lack of adequate machinery to enable us to make such financial provision for our foreign trade as it may require. Other addresses at the group on financing foreign trade were: "Financing Trade through Credits and Investments" by John L. Gardin, and "Financing Foreign Trade through Foreign Finance Corporation" by Frank B. Anderson.

Political The Field.

JOHNSON TO SEEK VOTE OF BUSINESS

NEW YORK, May 13.—Senator Hiram W. Johnson will make a tour of the larger cities in the east and middle west between now and the date of the Republican convention in Chicago with a view to placing his candidacy for the Republican presidential nomination before business men, it was announced at Johnson headquarters here today. It was said the itinerary would include New York, Philadelphia, Pittsburgh, Chicago and Cleveland. Senator Johnson's speeches on this tour, it was said, would be designed to counteract a flood of literature disseminated among businessmen picturing him as an extreme radical.

FRANCE IN RACE FOR PRESIDENCY

WASHINGTON, May 13.—Senator Francis of Maryland is the latest entrant in the Republican race for the presidency. He has announced that he is willing to be considered as a "possible dark horse" for the nomination at the Chicago convention.

Peace Status Vital to U. S., Says Kellogg

Minnesota Senator Declares He Is Ready to Vote for "End of War."

WASHINGTON, May 13.—The provision in the Republican peace resolution requesting the president to open negotiations with Germany for a separate treaty was stricken out today on motion of Senator Lodge of Massachusetts, the Republican leader.

After the provision had been stricken out, agreement was reached for a final vote on the resolution at 4 o'clock Saturday.

WASHINGTON, May 13.—A status of peace must be obtained "in some other way" if it cannot be secured by ratification of the treaty and the League of Nations, Senator Kellogg of Minnesota, one of the original "mild reservation" Republicans in the treaty fight, declared today in the Senate, supporting the Republican peace resolution.

"The time has come when something must be done," he said. "The nation as soon as possible must be returned to normal conditions. I shall therefore vote for the resolution. Declaring the war at an end, because it seems to me the only possible way now of accomplishing this object."

"I voted for the treaty and the League of Nations," he continued, "and I would do so again, but never if American sons and American resources must be called at the behest of any foreign country to sustain the tottering and turbulent nations of Europe, never if we are to sacrifice the century-old Monroe Doctrine, never if foreign countries can interfere in our domestic policies or bring American labor to the level of Europeans and Asiatics; never if this country is to be denied an equal voice in the councils of the League of Nations."

Kellogg expressed confidence in the effectiveness of the resolution to accomplish its ends.

TRANSPORTATION UNDER DISCUSSION

SAN FRANCISCO, May 13.—Three kinds of transportation are now required by our foreign trade," said R. M. Calkins, vice-president of the Chicago, Milwaukee and St. Paul railway, in an address before the group session on Transportation and Communication at the National Foreign Trade Council convention last night.

The transportation of thought by wire or wireless, the transportation of communications and statements by letter, and the transportation of passengers and cargo by railroad and steamship lines are the three forms, the speaker went on to say, continuing:

"The best results can only be obtained by the combination of these into prompt regular and dependable service."

"It seems to me that the simple

URGES TEACHING OF ECONOMICS

SAN FRANCISCO, May 13.—That economics should be more widely taught in the high schools so that all elements in our population would be fitted to grasp such problems as those affecting our foreign trade, is the opinion of Dr. E. L. Bogart, assistant foreign trade advisor of the State Department, who last night addressed a group session of the National Foreign Trade Council convention.

"The United States has always been the testing ground for new social and economic experiments. Our people have constantly to pass judgment upon these questions and to form opinions as to their reasonableness. Moreover, since our government is democratic, more questions are referred for decision at the polls than in any other country, and most of these questions are either directly economic or involve economic considerations."

"And finally as a worker earning and spending his income, the citizen is called upon daily to make decisions which are economic in character. It seems clear that if he is to meet his obligations intelligently, the average citizen should possess a knowledge of economic principles, should have his powers of observation and discrimination trained and be able to apply his knowledge to the problems presented to him."

The address was made at the group on "Education for Foreign Trade," presided over by Prof. H. A. Hatfield of the University of California. Other addresses were: "Adequate School Training in Commercial Geography" by Edmund A. Walsh, and "Geography in School and College," by Emerson Lucas.

Meda May Succeed Nitti As Premier

BY INTERNATIONAL NEWS SERVICE.

ROME, May 13.—Signor Meda, leader of the Catholic party, may succeed Signor Nitti as premier of Italy. Following the resignation of the Nitti cabinet as a result of the hostile vote in the chamber of deputies, Signor Nitti recommended that Signor Meda head the new ministry. King Victor Emmanuel gave an audience to Signor Meda today.

and yet indispensable things in connection with the building up of our foreign commerce have been given the least attention of all. In the first place, the American citizen, in spite of the vast mileage included in his own country, is usually alarmed by great distances.

In the mapping out and establishing the through trade routes, they should be closely allied with the principal railway lines of the country. In fact, there should be a very close working arrangement between the railroad and shipping interests to the end that through rates and fares between foreign ports and all principal American centers be established and through bills of lading and tickets be obtainable."

Other addresses at the section on transportation and communications were: "Port and Terminal Facilities," by B. F. Cresson Jr.; "Communications," by Gordon C. Corbin; and "Transportation Development of Asia," by Paul P. Whitman.

DYING COMING HIGH FOR CATS WITH 9 LIVES

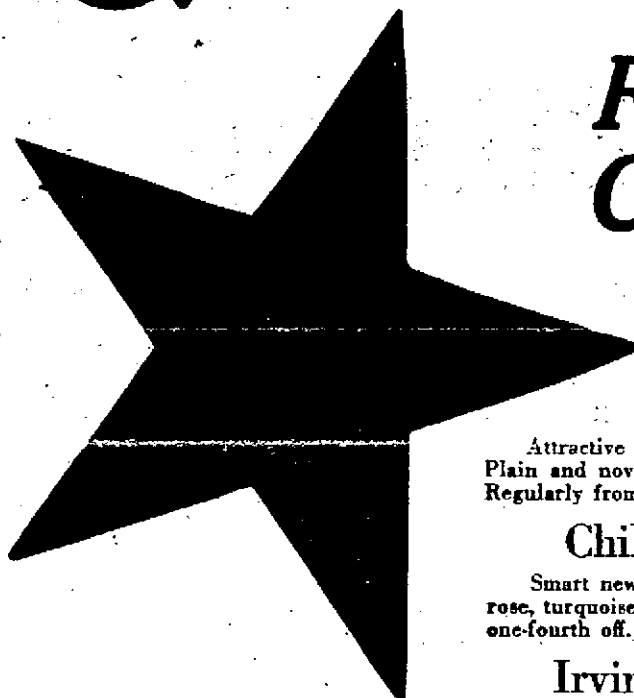

If there are any poets in catville let them try this on their mew.

Be it known that in these days when the value of money and former standards are going to the dogs more things than bootjacks are coming to the cat. While the high cost of living is bothering human beings the high cost of dying is affording a peculiar and pecuniary protection to the Tabby and Tom.

It is like this: Before the war the city pounds of Oakland and of Berkeley charged 25 cents to kill a cat, provided the cat's owner took the animal down to the pound. Rates for stray cats and cats that had to be pursued or called for were 50 cents.

Today it is announced that 50 cents is the rate in the personally conducted cases and \$1 for cats of the second class. It is a jump of one hundred per cent with no relief for any, save the cats, in sight.

News of the Theaters

"VIE" QUINN TO APPEAR AT THE OAKLAND ORPHEUM
The Oakland Orpheum is to offer "Vie" Quinn as a feature on the program opening with the Sunday matinee. She will be supported by a group of clever musical artists. The remainder of the bill is declared to be almost equally strong and to be very well balanced. Pictures and musical numbers will add to the bill.

"LOMBARDI, LTD." TO BE SHOWN AT THE FULTON
Following Maud's evening "Humming Bird" at the Fulton theater next week will be "Lombardi, Ltd.," the merry bundle of fun in which Leo Carillo, former San Francisco newspaper man, created such a sensation a few weeks ago. Paul Harvey is to take the role of Lombardi. The full strength of the Fulton players is announced for the supporting cast.

"THE IDOL DANCER" BIG FEATURE AT THE T. AND D.
A happy farce featuring the close of "The Idol Dancer," an emotional play, now at the T. and D. and in which the Barthelemy and the Clary Seymour stars "From Hand to Mouth," the Pathe News, the T. and D. and the concert are the other features on the bill.

"ALIAS JIMMY VALENTINE" LEADS BILL AT AMERICAN
"Alias Jimmy Valentine" is proving a big drawing card at the American and in this play Bert Lavelle is playing the stellar role in this hit. On the same bill is Bessie Barriscale in "A Woman Who Understands," John Wharry Lewis and his orchestra offer a fine orchestral program.

"DR. JEKYLL AND MR. HYDE" BIG FEATURE AT KINEMA
"Dr. Jeekyll and Mr. Hyde," a weird tale of a dual personality, is attracting big crowds to the Kinema this week. On the same program are offered jazz dancers, a big comedy, Memories of John Barrymore, Mutt and Jeff and Killings.

POPULAR COMIC OPERA OPENS AT THE LIBERTY
Commencing this evening at The Liberty will be that delightful musical whimsicality "H. M. S. Pinaflore" and it will continue for the remainder of the week with a matinee on Saturday. Ruth Ellen Marr is to be presented as a new attraction. She will sing "Josephine."

"THE BOOTLEGGERS" WIN APPROVAL AT COLUMBIA
"The Bootleggers" is proving a big attraction at the Columbia and in this play Eddie Gilbert and Ira Roberts have the two chief comedy roles, supported by Gwendolyn Evans, Nat Westcott and Ray Dugan. Besides the comedy there are a series of good musical numbers. There will be a Saturday matinee.

BARN DANCE IS TO BE FEATUE AT THE PARK
The feature at Idora Park tomorrow evening will be a barn dance and the big pavilion will be appropriately decorated for the occasion. Special prizes are offered for the best costumes as well as the best dancers.

DRAMATIC FILM OPENS TONIGHT AT THE BROADWAY
Commencing today and continuing throughout tomorrow "The Street Called Straight" will be featured at the Broadway. The play is intensely dramatic. The program also offers Tom Moore in "Job's Bow" and a Charlie Chaplin comedy, "The Rink."

"TWO WEEKS" WILL OPEN TONIGHT AT THE FRANKLIN
Constance Talmadge is at the Franklin for the remainder of the week in "Two Weeks," a play interspersed with dramatic and comedy features. Supporting her are Conway Tearle, George Haward and Tempair Saxe. A Sunshine comedy, "The Rink," adds to the merit of the bill.

"GIRLS WILL BE GIRLS" ONE OF PANTAGES' FEATURES
The bill at the Pantages this week is well above the ordinary and the musical comedy "Girls Will Be Girls" is proving a big hit. This program also includes Asha and her Oriental acrobatics, McGrath and Peeds, singers, Fred Allen, comedian, and the Haas brothers.

TITLE SWIMS TO BE HELD AT NEPTUNE BEACH
Two important swimming contests are to be held at Neptune Beach next Sunday, the P. A. Ward, Jr. backstroke for men and the 100 yard Jr. women's breaststroke. There also will be dancing both afternoon and evening. The contest will be a Capelli band is to give a concert.

SAN DIEGO CLUBS RAIDED
SAN DIEGO May 13 — Prohibition officers are busy today. Five social clubs have been raided and some liquor taken. Similar raids will follow, it is said.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things:

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them that irritate the stomach and lead to excess acid secretion or they can take as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a "Bismarck" Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarck Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of the granulated tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the most digestant, naturally and healthfully without need of peppermint pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or taste and in the granulated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."—Advertisement

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets. Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. Take one clear, pink, "bright eyes," "roses," a feeling of buoyancy like childhood days must be the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

Like a Queen Sits This Splendid Concern

with its experience of 70 years serving a discriminating public.

The oldest store on the Pacific Coast; known round the world as a safe, responsible place to get the best, the most unique articles and at a price that is not extortionate.

You Can't Brush Or Wash Out Dandruff

The only pure way to get rid of dandruff is to dissolve it then you destroy it entirely. To do this get about four ounces of ordinary liquid kerosene, apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

You can get liquid kerosene at any drug store. It is inexpensive and never fails to do the work.—Advertisement

SAN LEANDRO office of The TRIBUNE is now located at 1256 E. 11th St.; phone S. L. 400.

USES OF ASPIRIN TOLD BY "BAYER"

Bayer Company, Who Introduced Aspirin 18 Years Ago, Gives Advice

When the Bayer Company introduced Aspirin over eighteen years ago, physicians soon proved it a marvelous help in relieving Rheumatism, Colds, Headaches, Neuritis, Earache, Toothache, Lumbago, Neuralgia, Aching Joints and Pain in general.

To get this same genuine, world-famous Aspirin, you must ask for "Bayer Tablets of Aspirin," marked with the "Bayer Cross." You will find safe and proper directions in every unbroken package.

Handy tin boxes of 12 tablets cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monacaetia, Germany of Salzwedel—Advertisement

Bleeding Gums Are Dangerous

GUMS that bleed easily when the teeth are brushed or a toothpick is used are a sign of pyorrhea, and pyorrhea is a very dangerous disease. It cuts under the gums along the tooth roots, sets up inflammation and causes a poisonous pus to form. Some of this pus is absorbed in the blood, and is the direct cause of rheumatism, lumbago, neuralgia, liver, heart, kidney and blood diseases. Some of the pus is swallowed with food, and leads to serious stomach and digestive disorders.

DR. PAINLESS PARKER

Pyorrhea, if neglected, causes the teeth to become loose and eventually they are lost. Very many people have pyorrhea—probably 70 out of every 100. It is a disease that can be largely controlled and sometimes cured.

Registered Dentists using the E. R. Parker System treat many cases of pyorrhea, and have much success in controlling it. If your gums are not firm and healthy, if they bleed easily and have a bluish red color, and you are not feeling very well, you are invited to call at any of the offices using the E. R. Parker System and have your teeth examined free. It is high time to look after both your teeth and your health.

Registered Dentists Using the E. R. PARKER SYSTEM

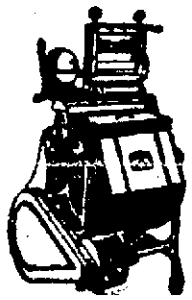

1256 E. 11th St. Phone S. L. 400.

STORY WRITING CLASS.

The extension division of the University of California will open new classes in short story writing in Oakland next week, conducted by Professor E. O. James. The classes will meet on Friday evening in Oakland Y. W. C. A. On Friday afternoon Professor James will open a class for the study of modern poetry, the class to meet at the Hotel Oakland at 4 p. m. Registration for all of these classes are now being received at the office of university extension, room 301 California hall, Berkeley.

Flowers Furnish Background for Home Wedding

Pink, white and lavender blossoms graced the home of Mr. and Mrs. J. Becker last evening for the marriage of their daughter, Miss Madeline Becker, and Meriam Joseph Howells. The service was read at 8 o'clock by Rev. Lynn Townsend White of San Rafael before a company of relatives and immediate friends, an improvised altar decked with blossoms furnishing the setting for the ceremony. The bride wore the conventional gown of white satin and tulle, carrying a handsome shower bouquet of orchids and valley lilies.

Mrs. Philip Elmore Gier was matron of honor and Miss Christine Howells was bridesmaid, both wearing tulle in the pastel shades and carrying shower bouquets of pink bridesmaid roses.

Hamilton Howells was best man for his brother and the wedding march was played by Miss Grace Becker, sister of the bride, and Frederick Maurer Jr. Following an informal reception the couple left on a motor trip and later will make their home on a ranch near Oroville.

Both bride and bridegroom are prominent in college circles, and as Miss Becker the bride shared in many of the social affairs of the past few months given in honor of the engaged set.

Saturday afternoon Mrs. Robert Hilliard Collins will entertain a group of the sub-debante set in honor of her daughter, Ruth, the affair to be given at her home in Piedmont. Twenty-four will be guests at luncheon.

LUNCHEON AT HOTEL OAKLAND
 Miss Barbara Bradt was hostess Saturday last at luncheon for thirty of the school set, entertaining at the Hotel Oakland. The guests were the Misses Helen Brown, Helen Harris, Kitty Bell Long, Marjory Walker.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray has disappeared, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Advertisement.

Used for 70 Years
 Thru its use Grandmother's youthful appearance has remained until youth has become but a memory.
 The soft, refined, creamy white appearance it renders leaves the joy of Beauty with you for many years.

Oriental Cream

Two New Regal Oxfords in Genuine Cordovan

HERE is a combination hard to beat. The world's best leather made into shoes by some of the World's best shoemakers.

Only an organization of Regal's size and experience can economically command the very best in men and materials, and so combining them as to carry out the highest ideals of the industry.

Compare these two genuine Cordovan Oxfords, quality for quality, with those found elsewhere in Oakland and see what a saving there is for you in the Regal plan of moderate profits.

An exceptional shoe, considered from the standpoint of design, finish or value. Cordovan is the highest priced leather, making it more surprising that you can find it in a Regal Craft Oxford for \$17.00.

The popular "Crest" pattern is shown with the "Ace" model—a combination of swaggy style and exceptional comfort. Genuine Shell Cordovan—very scarce, but much wanted because of its strength and beauty.

CARDS OF CONGRATULATION

Cards of congratulations have been sent to two Eastbay homes this week. Mr. and Mrs. John Janney Miller are the parents of a little son born on May 12.

Mr. and Mrs. John Clifton Ernst are receiving the good wishes of their friends since the announcement of the birth of a little son May 12. Mrs. Ernst was Miss Bernadette Williams. The little one will be christened William Rufus Ernst and is the first grandchild of Mr. and Mrs. William R. Williams of this city.

The Peter Pan Sports dance will be given at the Home club on Fourth avenue tomorrow night. About two hundred of the school set will convene for the last social affair of the season.

Mr. and Mrs. Irving Lundborg have sent out cards for a dance they will give at the Claremont Country club Saturday, May 22, when several score of the school set have been asked to be guests of Miss Helen Lundborg, their daughter.

Another dance for that evening will be that to be sponsored by Walter Clark and Jack Gumpertz at the Regal Yacht Club. One hundred and fifty will be guests. Mr. and Mrs. William Clark will assist in receiving.

Yesterday friends were apprised of the betrothal of Miss Allison Warner and Reginald Marshall of the Oakland Bank of Savings. Miss Warner is daughter of Mrs. C. S. Warner of Richmond boulevard and is a graduate of Stanford University.

Marshall is a son of the late Mr. and Mrs. Charles Knox Marshall and a brother of Mrs. William S. Wells Jr.

The wedding will take place May 22 in Trinity Episcopal church.

Mrs. Charles Lovell will be hostess at tea May 20 for her daughter, Mrs. Sterling Hill, who is visiting in the bay section.

Stanford No Longer Self Sustaining Wilbur Reveals Need for Funds

STANFORD UNIVERSITY, May 13.—That this university is no longer self-sustaining, notwithstanding its \$30,000,000 endowment left by the Stanfords, and that the university is not asking for and receiving aid from outside sources was revealed yesterday in an address given by President Ray Lyman Wilbur before an assembly of students. For the first time in the history of the university the students were taken into full confidence as to its financial conditions, its past difficulties and hopes of the future.

Most of the present endowment is invested in gilt edged, but low interest bearing securities, which do not mature until 1927. It is this condition which has kept the University poor and forced it to sell not only almost all its landed properties but exact a tuition fee. All the university's land in the Sacramento valley and the south have been disposed of, including the old Vina ranch at Chico, the Gridley property and the Del Monte holdings. The sale of these ranches was necessary to clear up the debt left by the earthquake in 1906.

When the problem of raising professors' salaries came up last fall the administration found it necessary to put in force a tuition fee of sixty dollars a year to keep the best of the faculty with the university.

President Wilbur expects that within ten years the Stanford alumni who are still relatively young will be in such a position that the university can appeal to them for additional endowment and aid.

Announcement was made here this morning of the gift of \$100,000 from an anonymous patron of this university which will be used in constructing a new university dining hall which will accommodate 400 students. The new building will have 100 sleeping rooms for 100 students. The

board of trustees have voted an additional \$100,000 to go toward the building. Bakewell and Brown, San Francisco architects, are working on plans.

600 Railroad Strikers**Return at Pittsburgh**

PITTSBURGH, May 13.—Six hundred strikers, yardmen and trainmen of the Pittsburgh and Lake Erie Railroad who have been on strike at

the important terminal at Dickerson Run, Pa., returned to work today, it was announced at the general office of the company. It is the most important break in the strikers' ranks since the strike was called a month ago.

WOMEN URGED TO USE LESS SUGAR

New demands on the United States Attorney General to prosecute those sugar jobbers who withhold stocks from the market and a resolution directed against an expected advance in bread prices are new activities of the executive committee of the California State Housewives' League.

As a further step to reduce the price of sugar, the housewives have decided to ask all California women to reduce the weekly consumption to two pounds for an average family. In their telegram to Attorney General Palmer the women said:

"The State Housewives' League of California knows that the extortionate price of sugar is due to conscienceless profiteering. The high price of sugar is affecting all the people. People are losing faith in your department because of lack of prosecution of these profiteers."

Mrs. Edward P. Scanlan of San Francisco and Mrs. W. T. Cleveland of Berkeley signed the telegram.

In the bread resolution the housewives declared that they did not propose to pay the increased price demanded by drivers and that if such an increase meant an advance in bread prices they would perfect arrangements with grocers to use their own wagons to get the supply from the bakeries.

Workers Desired for Salvation Army Drive

With the close of the fourth day of the drive for funds of the Salvation Army for the construction of a new rescue home in Alameda county, Harman Johnson, president of the Oakland Rotary club and chairman of the drive, today issued an appeal for more campaign workers.

"There are plenty of people ready to aid the cause," he said, "but we lack workers to collect the donations."

The Southeast Oakland Improvement club has turned over its entire treasury, \$180, to the cause. A man collected the headquarters and gave \$10 in Thrift stamps.

Girls of the Omega Nu sorority will attempt to sell 10,000 doughnuts on the streets Saturday to aid the drive.

"Liberator" Publisher Sues Police Heads

Chief of Police J. F. Lynch, Captain Fenton Thompson, Walter J. Petersen, Fred Bogie, J. R. Miller and others are named by the publishers of "The Liberator" in a suit filed in the United States District Court and asking damages on the ground that they suppressed the circulation of the magazine after they had "classified it as red." Chief White and Captain J. J. O'Meara of the San Francisco department are also named in the action. In the complaint Crystal Eastman, president of the company, charges that the defendants, without judicial power or authority, constituted themselves judges and prosecutors.

Firm Penalized by State Fish Exchange

The Oakland office of the A. Palladini Fish Company will be without a license to conduct business for one day, May 17, as a result of findings of the State Fish Exchange that the company charged 5 cents a pound more for striped bass than the price fixed by the exchange. Notice was served by Fred N. Bigelow, secretary to the exchange, who says this is the third complaint against the Palladini Company.

HUSBANDS 3, 4 SUED FOR BILL OF FIRST'S SON

Dr. J. L. Vickerson sued Mrs. Myrtle C. Friedrich, R. P. Marden, her third husband, and O. E. Friedrich, her fourth and present husband, to collect \$12 alleged to be due for settling the broken limb of the first husband's son. Marden had legally adopted the boy during his marriage to the mother. It was claimed that he, therefore, was liable regardless of her other marriages. Judge Harry Paulsen today gave judgment for the \$12 from all three defendants, saying Marden was liable primarily, as well as Mrs. Friedrich.

S. F. GRAND JURY MAY END CAREER

SAN FRANCISCO, May 13.—San Francisco's grand jury, which has been in session over a year and which has had a story career as the uncoverers of the Riccardi-McDonough feud and of the alleged police court and bail bond graft, will pass out of existence within a few days unless the desires of Foreman Harrelson are overruled by those of Attorney General U. S. Webb.

Harrelson has announced that there is nothing left for the jury to do, that all of the members feel they have served long enough, and that he will ask for the body's dismissal.

Webb is busily engaged in marshaling his men and evidence and is expected to announce a definite line of campaign in his investigation. A caller at his office yesterday was Judge Oppenheim.

In a letter to Foreman Harrelson Police Judge Henry M. Owen invited the grand jury to get first-hand information concerning the police courts, and declared that cases in his court were dismissed only for lack of evidence and to save the taxpayers money when he considered that there was no chance for a conviction in the higher courts.

No Present Indication of Gasoline Advance

No present indication for an advance in the price of gasoline in California is seen by officials of the Standard Oil Company in the local field. Despite the rise of 14 cents a gallon in the East, the California price will be the same. The company has announced that, as a result of an extensive advertising campaign urging economy in oil use, there is marked evidence that the public is co-operating and that rationing will not be necessary. If consumption of oil by passenger vehicles is conserved 20 per cent, it is announced by the company, there will be enough to go around.

Hearst's Magazine—a Liberal Education!

SIR HALL CAINE

Author of "The Christian," "The Prodigal Son," "The Woman Thou Gavest Me," etc., whose greatest novel, "The Master of Man," is now running in Hearst's.

Is Man Happier Without Woman?

Would Victor Stowell have been happier had he never met Bessie Collier?—Why did Prince Michael Fedor of Monte Carlo organize among his friends "The Enemies of Women," a community from which women were strictly excluded? Are men really happier without women? The two great novels of 1920—"The Master of Man," by Hall Caine and "The Enemies of Women," by Blasco Ibanez—deal with this question. Both these great novels have just started in Hearst's.

BLASCO IBANEZ

Author of "The Four Horsemen of the Apocalypse," "Blood and Sand," "Mare Nostrum," etc., whose new novel, "The Enemies of Women," is just starting in Hearst's.

Has Nature a Brain?

Does thought die when life leaves our physical brain? Scientists say there can be no thought without a living brain. Yet, argues Maurice Maeterlinck, before the appearance of man, Nature was far more intelligent than we are. In the world of plants and fishes and insects, she had already achieved the most marvelous inventions. Nature to conceive ideas does not need the brain of man. In fact our own brains themselves are but the evidence of pre-existent thought.

Why Do People Take Drugs?

"Her voice caressed him—her yellow eyes—brilliant as topaz—held him powerless. With her forefinger she made signs as though writing in Turkish or Chinese characters."

THE PLACE OF PRAYER
By Robert W. Chambers

The use of habit-forming drugs in the United States has grown to an alarming extent. It is estimated that in New York City alone there are several hundred thousand drug addicts. The habit is the more insidious because often acquired innocently through legitimate medical use. The only way to cope with this terrible evil is to warn against its awful results. It is with this purpose that Hearst's publishes "The Confessions of a Drug Victim."

Hearst's for May

IF you are content with an ordinary magazine, if you are not willing to pay well for the very best, you won't want Hearst's this month or any other. But if you really want the words of the world's great writers—the words of the world's great thinkers—make sure each month—starting today with the May number—of your copy of

THURSDAY MAY 13, 1920.

THE FUTURE OF MANUFACTURING.

The reasons for the choice of the National Foreign Trades Council of San Francisco bay for its meeting place and the belief of its chairman, James A. Farrell, president of the United States Steel Corporation, in the manufacturing and exporting future of the Pacific Coast were made plain at the opening day's session of the great industrial convention in San Francisco.

"The importance of the Pacific Coast must be recognized in the awakening of the world and in the development of this country's foreign commerce," Chairman Farrell said in the first and keynote speech to the delegates. That sentence means that the country's largest manufacturers and exporters must seize the opportunity that is here to increase the nation's foreign trade. It is an appeal for big business to establish plants and branch houses on the Pacific and a promise for unusual and immediate development.

"Either we shall find markets for the surplus of our industrial productivity," Farrell told the convention, "or we shall cease to produce. It is significant that the Pacific Coast is increasing its trade and its products are finding a market in practically all parts of the world."

Here is a straight and urgent statement of the situation. The future of industry depends upon the export business, upon the return of a favorable balance of trade, and the Oriental field offers one of the greatest means toward a solution. The logical centers for that trade are here on San Francisco bay and the men most interested in the perpetuation of American manufacturing know this to be true.

There is every reason to believe that the convention now in session across the bay will mean more toward the development of this part of the country than did the exposition or the wartime demand for ships. It should mean a permanent development and the establishment, on its natural site, of the industrial center that is to supply manufactured goods to the Orient and West Coast countries.

THE DEATH OF HOWELLS.

A short time ago when one of those agencies that guarantee to teach in six lessons, the art of writing sent one of their ingenious offers to William Dean Howells the country joined with Howells in a laugh at the ludicrous proposal. For years he occupied, in his "Editor's Easy Chair," a position of security as the dean of American literature. He was an inspiration and a model not only to novelists, but to critics, essayists, poets and biographers.

It is rather surprising and also encouraging in view of the attainments of Howells as a writer and scholar, to learn that he was self-educated. Most of his education was gained in his father's and other Ohio newspaper offices in which he worked as compositor, correspondent, and editor. Later when opportunities for travel came to him he made the most of the chance to acquire a knowledge of other languages. He was a deep reader and an observer and until the last looked upon life for its opportunities to enrich the mind.

Howells was the last great figure of the old school in American letters. He was the intimate friend and admirer of Mark Twain and he was the legitimate follower of Oliver Wendell Holmes. In his work he was never flagging and in his variety he was astounding. Whether the product be a farce, a poem, or an estimate of the heroines of fiction, his reader will find him authentic, informative and scholarly. With all his dignity and rigorous adherence to the literary niceties he possessed a gentle and elevated humor.

As editor of the *Atlantic* and *Harpers* he had the opportunity to introduce to the American public many of the writers who are now famous. It is to his credit that he gave encouragement to merit and not to influence and that he was able to subordinate his own preferences for the almost classic style when he recognized the worth in the more modern writer.

There is no one to take the place of William Dean Howells in American letters. It takes years of hard and conscientious labor and a consistent maintenance of the highest standards to build a reputation such as his. He will be missed for his wholesome influence toward a sane and

healthy literature and those writers who have decried him as out of date may find the greatest reasons for regretting the absence of his example and advice.

BUDGET PROGRESS.

Before many months have passed, and possibly within a few weeks, Congress it is earnestly hoped will have taken action to establish a national budget system, and a plan proposed before the war and incorporated in the last Republican platform will have become a reality.

The proposal now considered, and which may come before Congress within the week, is the so-called McCormick bill. It has been reported out of the special Senate committee by an unanimous vote and is considered an improvement on the one passed some time ago by the House.

A national budget will restore to the Secretary of the Treasury some of the powers that were his in the days of Alexander Hamilton. It will put business efficiency, accuracy and economy where they are most needed, in the spending of public money. At no time has the United States dealt in such huge sums of money as it did in the years of the war and will in these next few years that are to follow. It is obvious that unnecessary expenditures should be eliminated and that every means should be taken, short of those that will retard progress or cripple national defense, to bring more close that time when the burden of war taxation shall be lifted. The budget is a step in that direction.

The bill would set up a budget bureau in the Treasury Department to which the various government departments, on or before October 1 each year would submit their estimates for expenditures for the ensuing fiscal year. The bureau would compile these estimates and submit them, with recommendations, to the Secretary of the Treasury not later than November 1. He, in turn, would revise and coordinate them and submit them to the President not later than November 20. The President would have twenty days in which to review the figures and before handing them to Congress.

When presented to Congress the budget would be a complete statement of the administration's financial condition, as well as an outline of a proposed fiscal policy. It offers the opportunity for the President to revise and to exercise a control that, in some cases, may cause protracted Congressional debate and it cannot be said to give the budget bureau much time to weigh the merits of departmental estimates. In the publicity and open discussion it will give to expenditures it will work toward a better popular understanding of the machinery of national expense and will place on an easily accessible record the matter of administration extravagance or economy.

The budget way is the business way and the right way.

Whether this bill may do all that is expected in the best possible manner remains to be seen. If it is not passed it is certain that a budget plank will appear in the Republican platform, at least, and that action toward establishing the system will be started soon after the Republican victory at the polls.

MOTHERS AND BABIES.

Sudden visitation of disaster always awakens public interest and sympathy and opens the purse of the generous. When Dayton, Ohio, was swept by flood, communities throughout the country raised subscriptions to provide relief. When a tidal wave swept over Galveston, Texas, the same thing happened. When fire and earthquake hit San Francisco, not only did the whole people of the United States and the Federal Government send relief, but money and supplies came from Asia and Europe.

Such is the appeal of the violent and spectacular display of disaster. But in the case of steady, continuing misfortune our conscience seems to be dull and unresponsive.

There is for instance the carefully prepared report of the National Children's Bureau showing 23,000 mothers and 125,000 babies die each year in the United States because of lack of proper care—die from avoidable causes. This is a total of 150,000 lives. It is equal to the entire population of a city the size of Youngstown, Ohio, or a city nearly three times the population of Berkeley or five times the population of Alameda.

A bill is pending in Congress—the Sheppard-Towner bill—which proposes a radical change in the attitude of the Federal Government toward mothers and babies. The theory of the measure is that babies and mothers deserve quite as much consideration at the hands of the Government as pigs now receive. How much amelioration of present neglect may be achieved under the proposed law is unknown, but it at least deserves the attention of every citizen interested in this vital matter.

The National Council of Women, the League of Women Voters, the W. C. T. U., the D. A. R., the Y. W. C. A., and many smaller organizations have endorsed it. It is a subject on which you might write your representative in Congress.

The President has signed the act of Congress authorizing the deportation of Germans and other alien citizens who were interned during the war as enemy aliens. This places in the hands of the government an effective instrument to rid the country of many undesirable foreign trouble-makers. If the law is not administered by radicals and friends of radicals it will serve to afford a larger measure of protection against alien criminals.

NOTES and COMMENT

Among other costs that have soared is that of salvation. Dr. Kennegott, superintendent of the Southern California Congregational Conference, states it with a sort of profane directness when he says that "the dollar will no longer buy a dollar's worth of religion any more than it will anything else." Perhaps it is characteristic that the discovery should be made at Los Angeles.

The Sacramento Bee bites its thumb at a contemporary: "In voting about eight to seven for Johnson against Hoover, Fresno county in the presidential primary responded pretty closely to the well-nigh evenly divided support given the two candidates by Chester Rowell's Fresno Republican."

The canard appears to have found rich soil in the Mexican upheaval. One account was that Carranza had fled. Another that he had been taken prisoner by the rebels. Another that he had been assassinated; while the latest is that he is making a stand at San Marcos against General III's troops.

Church items from the Richmond News: "Our pastor said in his Sunday sermon that the Lord intended every man should have plenty of good things to eat. We said, 'Amen.' And he said the Lord intended that men and women should have a whole lot of good things to wear. But what's the use? The women won't wear 'em."

The somewhat hailing laws have been amended so that enemy aliens whose deportation was impracticable during the war, and their activities circumscribed in internment camps, may now be sent back to the several countries which they seemed to esteem above this. All our laws bearing upon undesirable aliens might well be overhauled. They seem often to fail of prompt and adequate relief of pronounced abuse of national hospitality.

The Democrat gives a hint of a voter's embarrassments in Woodland. "Tom Cummins, Democrat by heredity and preference, had a clothespin clasped on his nose when he voted Tuesday. And so did many a Democrat who had to use the same kind of a ballot that Tom called for."

"The boy stood on the burning deck" when Editor Rowell, after "flaying the government," said, "I realize that, because of my statements, I am feloniously liable under the Criminal Syndicalism act. It happened in his Phi Beta Kappa speech, and must have been thrilling."

Suggestive suggestion from the Stockton Record: "Conservation of sight was discussed at the recent meeting of the California Society for the prevention of blindness. Utland the suggestion is offered that longer skirts would help."

The Washington Post kindly warns us: "Look out for something suspiciously indecent when Homer Cummings spills his cascade of incandescent oratory at the 'Frisco convention.'"

Major John Robert Prettyman Newman, member of Parliament, may not smash the price of clothing, as he hopes, by appearing in the historic legislative hall in overalls and spats, but he will promote gaiety, which is the next best thing.

Berkeley's census showing doesn't suit the town at all. Generally this sort of complaint is not impressive, but it Wells Drury says the returns ought to show 63,000 instead of 55,856 we are not inclined to think the contention is of the strictly grouch order.

The Redding Searchlight is perhaps overfriendly to Johnson has a clue on a combination. If the Republican party turns him down he will continue to run anyway."

SPIRIT OF THE STATE PRESS

Game Warden J. H. Hill, commenting on the H. T. Scott deer killing case, stated that the minimum fine of \$25 imposed on Scott by Judge Voss was recommended by himself. After arresting Scott he returned to Hollister with the idea of recommending a \$50 fine, but in this city he secured information which subsequently caused him to urge the minimum fine of \$25. This case is due to lack of direct evidence that there had been a violation and the fact that Scott stood an excellent chance to get an acquittal if he fought the case; also to the fact that Scott pleaded guilty and avoided the expense of a trial, and that Scott is poor, in debt, and had had much sickness in his family and that the deer had actually been killed to provide needed food.—Hollister News.

At the new tobacco plantation on the Dr. W. B. March ranch the work of setting out the young plants is now in progress. One million plants will be set and each plant has to be set by hand. As the plants are set in rows quite close together, all the weeding and cultivating has to be done by hand. About 100 acres are being set out at this time.—Chalvers Prospect.

Dr. Fuqua, president of the Chicago Dental Association, says there is too much X-raying and pulling of teeth. "There is a wave of tooth-pulling in this country," he says. But it is the wave of leg-pulling that is causing the greater roar.—Richmond News.

During the absence of Editor Kynock at his ranch near Yuba City, Messrs. Wilson and Hill of the Antioch Tribune force are doing the mechanical work of issuing the Brentwood News. The copy for news articles was furnished by Mr. Kynock prior to his departure.—Brentwood News.

"The Harmony of Contrast," presented, California School of Arts and Crafts, Berkeley, evening.

DAISIES.

Spring stands with feet expectant At the parting of the ways. The west wind lifts her tresses As to and fro she sways.
Her lips are parted slightly As the breezes move her hair, While her hands hold blossoms loosely With an air most debonaire.

She issues from the woodland And turns toward meadows green. And where she treads so lightly The daisies soon are seen.—Christian Science Monitor.

WHY MARKS DIDN'T SPEAK.

Last Tuesday night in a farmhouse near Cedar Creek, Neb., surrounded by a gigantic wireless outfit, sat Dr. Frederick H. Millener, waiting for a message from Mars or any other planet that night, as our spiritualistic friends say, be trying to "come through." It is reported that static disturbances played hob with the interplanetary Marconi Company. Nothing happened during the long vigil. It is not possible that the unfavorable conditions were caused by Hell-Roar! He wiping up the ground with the sturdy form of General Wood? The inquisitive and imaginative doctor should have known better than to make his trial on such a night.—New York World.

LET THE LEGION VOTE ON IT.

The suggestion of a referendum of the American Legion on the question of a bonus to all its members has much to commend it; especially provided that the question is put in the right way. We should like to know the choice of the legion between a flat-rate bonus to all its members, whether they need it or not, and, on the other hand, decent care and rehabilitation for the wounded and disabled soldiers, and decent pay for those who remain in the active service. We can have little doubt as to what the choice would be.—Harvey's Weekly.

EMERGENCY IN FOOD SUPPLY.

For once, the amount of the summer and fall crops is not a question of good weather alone. Even with the best of weather there will be planted a smaller number of acres and therefore there will be similar crops, than for many years past.

The controlling difficulty is that of getting farm labor. So great is this difficulty that large numbers of farmers have resigned themselves to growing only what they can produce by their own work, and the surplus of farm products will be cut down severely.—Alarmists say dangerously. There is even talk of famine, in some circles, but that is merely lugubrious nonsense.

It is not nonsense, however, that great numbers of farmers will not be able to get, or will not be able to pay, the laborers they should have to carry on this year's operations as extensive as the country's needs demand. This is proved not only by conversations with farmers—it was centuries and centuries ago that they abandoned the habit, if they ever had it, of cheerful prophecy. It is also proved by the decreased sales of seeds, of fertilizers and of agricultural machinery, and by a diminution in the amount of livestock carried.

If this is not enough to make people begin again to think about "war gardens" it is hard to tell what would be required to do it. And the "war garden" after all, is rather more of a symbol than of a reality, for its contribution to the total food supply is but a minute fraction of the whole, even in years of greatest scarcity. What counts is less the garden than what the garden shows as to the state of the gardener's mind—his appreciation of the fact that an emergency exists and his determination to do what he can toward meeting it.—New York Times.

TODAY 20 YEARS AGO

Rev. Barton W. Perry of San Leandro prepares to leave for Manila to fill appointment as army chaplain. Prune crop for 1920 estimated at 125,000,000 pounds with price fixed at 2 1/2 cents a pound.
Berkeley population estimated at 14,100 on basis of school census.

INTEREST OUTSIDE LAW.

I paid 84 cents for twelve doughnuts one day last week in a little Fifteenth street shop. They were made by the shop that sells the water bath so as to have the skin as nearly aseptic as possible. Use a small scalpel or knife for this purpose, made entirely of steel. Clean it thoroughly after use, and just before its use for five minutes. These precautions are necessary because you may cut "into the flesh, and unless your instrument is absolutely free of harmful germs their entrance, into the blood stream may set up blood poison.

After you have cut down the corn apply the following prescription to hasten its disappearance:
Extract cannabis indica—15 grains.
Salicylic acid—1 dram.
Ruben's ointment—1 ounce.
Flexible, colloidal, and well and apply with a camel's hair brush. Paint the corn and repeat the process every night until it has entirely disappeared.

Were a bank president to charge you more than the legal rate of interest for money he could be severely punished. But there are pearl necklaces, summer palaces and limousines for the profiteer who soaks you 100 per cent for some other commodity.—Philadelphia Press.

HEALTH and HAPPINESS.

Ways You May Keep Your Feet in Really Fine Shape
By DR. LEONARD K. HIRSHBERG
A. B., M. A., M. D.
(Johns Hopkins University)

The leather of your shoes allows very little room for the air to circulate over your feet. For this reason it is well to pay as much attention to the airing of your feet as to their bath. Change your shoes, therefore, twice daily. Hang up your stockings to dry and place your shoes where they can get plenty of air before you put them on again the next morning. If your feet perspire or feel weary, rub them well with alcohol after you have bathed them.

Precautions against such abnormalities as ingrowing toenails and soft and hard corns do not always prevent their appearance. The most careful woman sometimes may allow herself to be swayed into the purchase of shoes which are too narrow and sometimes even too short. This is the first cause for suffering.

The nails must have enough room to grow. Short or narrow footwear hampers the natural growth, and the flesh, therefore, grows over the nail. Besides improper footwear, this condition of the nails may result if they are cut too short, especially at the angles. The skin thus naturally grows over the nails, and then the flesh is pushed farther and farther up until inflammation is set up and acute suffering results. A small tumor accompanies this situation usually, and this forms pus and may go on to form the so-called "proud flesh."

The toenail should be cut in a concave form, the outer angle should project beyond the toe. If there is a tendency for the flesh to grow over the nail the flesh should be pushed back from the nail and fastened in this position with a strip of oxide of zinc plaster and a gauze packing should be inserted under the nail edge. A saturated solution of boric acid serves as an antiseptic dressing. It is often possible to cut off the projecting nail, and by the use of boric acid dressing the trouble disappears in a few days. Attention should always be given to the toenails when you bathe.

Corns are just as painful as ingrown toenails. Soft corns come between the toes. Unless you place oiled wax paper to prevent the rubbing of the toes together a second corn appears on the other surface of the adjoining toe. A very effective remedy is the application of blue stone or sulphate of copper to the corn. The stone is moistened in water and the application is thoroughly to the corn. Now place absorbent cotton between the toes. If the pain is very severe it may be necessary for you to stay off the feet for a few days.

If you insist on cutting hard corns you must do so with the greatest care. Do this directly after the bath so as to have the skin as nearly aseptic as possible. Use a small scalpel or knife for this purpose, made entirely of steel. Clean it thoroughly after use, and just before its use for five minutes. These precautions are necessary because you may cut "into the flesh, and unless your instrument is absolutely free of harmful germs their entrance, into the blood stream may set up blood poison.

After you have cut down the corn apply the following prescription to hasten its disappearance:
Extract cannabis indica—15 grains.
Salicylic acid—1 dram.
Ruben's ointment—1 ounce.

Flexible, colloidal, and well and apply with a camel's hair brush. Paint the corn and repeat the process every night until it has entirely disappeared.

STORIES OF WIFE AND SPOUSE VARY

Both Thomas McDonnell and his wife, Mrs. Jeanette McDonnell, testified today before Judge T. W. Harris in their fight for divorce, after which Judge Harris declared that someone was lying.

McDonnell denied having requested his wife to permit him to register at her home as a married man in order to escape the draft, but admitted she and her mother had called him a slacker the last night they were together.

Superior Judge T. W. Harris today granted an interlocutory decree of divorce to Mary Mary H. Bonestell from Chesley K. Bonestell, Berkeley architect, on the ground of desertion. They were married in Berkeley, October 10, 1911, and have one child, a girl, Jane Cleveland Bonestell.

MAN OBTAINS LICENSE TO WED SEVENTH TIME

James M. Dunbar, aged 56, married six times previously, today obtained a license to wed Mrs. Clara Hall, aged 55, who has also been married three times before. Both are from Santa Rosa. They will make their home at Duncan Mills, a small place near that city. Dunbar is employed in a lumber mill in that section.

stell, aged 7. Mrs. Bonestell said her husband deserted her February 15, 1918. She said he earns from \$500 to \$600 a month and asked for alimony of \$150 a month for two years after which she wanted it made not less than \$300 a month. The court made no order on this point. It said a financial settlement was made out of court. Judge Harris granted the custody of the child to Mrs. Bonestell.

POLICEMAN FALLS, CONDITION GRAVE

Mark D. Shankel, an Oakland policeman stationed in the northern police division, is in a precarious condition at the emergency hospital as the result of an accident last night which occurred when he tried to board a moving street car at Fortieth street and Telegraph avenue. He missed his footing and was thrown to the pavement. The back of his head hit the asphalt and he sustained a fracture of the skull. Shankel is a new member on the police force and lives at 40 Yosemite avenue.

London Paper Raps Wilson Naval View

LONDON, May 12.—President Wilson's address to the officers of the Atlantic fleet when America entered the war, in which he advised them to "win by the audacity of your methods," was "essentially the attitude of an impatient amateur," the Standard said today.

The newspaper was thankful "the admiralty possessed prudence even if it was condemned by Wilson." Otherwise, it said, the President's advice might have resulted in the defeat of the Allies.

Funeral Announced for Victim of Fire

BERKELEY, May 12.—Funeral services for Trygve Martin Nielson, 21-year-old son of Mr. and Mrs. T. M. Nielson of 2231 Tenth street, whose body was found this week in the ruins of the Lincoln hotel in Seattle, will be held at 2 o'clock Saturday afternoon at the undertaking parlors at 1836 University avenue.

Color and Cheer Go Hand in Hand

MARSHALL SAYS TINKER LESS ON CONSTITUTION

RICHMOND, Va., May 13.—Vice-President Marshall, speaking today before the Virginia Bar Association declared that if national prohibition had been considered by the Senate in secret session not twenty votes would have been cast for it.

Asserting that there should be less tinkering with the constitution, the vice-president expressed the opinion that constitutional amendments had "brought a very large measure of evil to the republic."

Marshall predicted that in the future the country will be faced by the question of government of law or of men, declaring that only two men—Samuel Compers and Judge Elbert H. Gary—now are consulted on public issues.

By a rising vote the association favored the nomination of Marshall for the presidency.

Inspector Green's Funeral Is Tomorrow

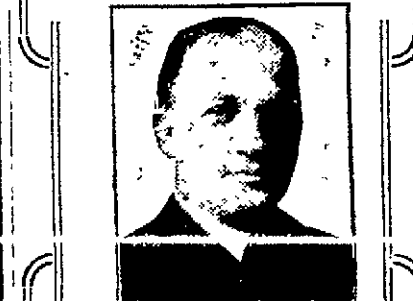

The funeral of former Captain of Inspectors Harry E. Green will be held at 2:30 o'clock tomorrow afternoon from the Masonic Temple, Twelfth and Washington streets, under the auspices of the Laurel Lodge of Masons, of which Green was a member. The pallbearers, who have been selected from Masons in the inspector's bureau of the police department, will be Captain James Drew, V. J. Coley, Frank Rossick, Harry Orbell, Harry Caldwell and Captain B. A. Wallman.

The City Council adjourned this morning after a short session, on the suggestion of Mayor Davis, in honor of former Captain of Inspectors Harry E. Green and William Dolan, district deputy superintendent of streets, who had died during the last twenty-four hours.

Spur Track Permit Granted by Council

Permission for the construction of a spur track on the north side of First street between Castro and Grove streets was granted to the Pacific Waste Products company by the city council this morning.

A similar permit for a spur track on the south side of Third street between Madison and Oak streets, was filed by the Western Fuel company and was referred for decision to the street department.

ENGAGED AND MARRIED ALL ONE TO KOVOS

Being engaged and being married apparently seemed the same thing to Pete Kovos, a witness in the Probate court, with the result that John A. Hill, public administrator, his attorneys, Dunn, White and Aiken, as well as Judge E. C. Robinson were put to considerable trouble.

After papers had been prepared distributing the estate of George Segouras, a shipworker recently killed in the shipyard, to his mother, Mrs. Maria D. Segouras as sole heir, Kovos took the stand and said:

"George Segouras married my sister Sophia Kovos, who is now dead."

Learning for the first time, as the court and attorneys believed, that Segouras was married, new papers were prepared giving half the estate to the parents of Miss Kovos. At the second hearing Kovos was placed on the stand again and then explained that his sister and Segouras had not been married but were only engaged. This necessitated the whole original proceedings being gone over again.

Council Occupied by Street Improvement

An appeal for the immediate improvement of streets near Laurel school was made to the council this morning by members of the School Mothers' Club, following protests by other property owners against the improvement of Brown and Patterson avenues. Decision was put over for a week.

The improvement of Star, Lorenzo and Paxton avenues, against which no opposition was expressed was ordered. Decision on the improvement of Fruitvale avenue was postponed for a week.

Additional proceedings were ordered for the improvement of portions of Forty-fifth avenue, Thompson street and Courtland avenues between Melrose and San Carlos avenues; Orion street between Fifty-seventh and Sixty-fourth avenues and Lorenzo avenue between Marion avenue and Suter street.

RUG STORY BILKS LOCAL HOUSEWIVES

Numerous complaints have come to the attention of the police during the week concerning the activities of a man who obtains money from housewives. His latest victim was Mrs. George Luttrell, 1215 Eighth avenue, who reported that she had been defrauded of \$1.95 last night.

The confidence man tells his intended victim that a member of the family has just won a valuable rug in a raffle and that it is necessary to pay freight and drayage charges before the rug is delivered.

Convicted Robber to Serve Fifth Term

SANTA CRUZ, May 13.—Julius Davenport, charged with the robbery of four dental offices here, pleaded guilty when arraigned before Judge Knight in the Superior Court yesterday and was sentenced to five years at San Quentin. It will be Davenport's fifth term in California prisons, three others being served at Folsom and one at San Quentin.

DESERTER SUSPECT HELD.

Picked up by the police last night when he was recognized by Sergeant E. W. Brock as a deserter from the navy, Joe Brodian, 20 years old, was arrested at Fifth and Broadway and lodged in the city jail to await the arrival of naval police from Mare Island.

LAUNDRY PRICES JUMP.

SAN FRANCISCO, May 13.—Laundries here have advanced prices. The new rates, to go into effect Monday, will jump the cost of men's collars from 4 to 5 cents and shirts from 17½ to 20 cents. Women's apparel is boosted five cents a garment.

WRECK VICTIM BURIED.

LIVERMORE, May 13.—Funeral services were held here this afternoon for Marco Balangero, who was killed in an automobile collision near Dublin Sunday night.

Freight Tie-Up Remedy Sought By Government

Congestion Menaces Industry: Strike and Car Shortage Are Blamed.

BY ASSOCIATED PRESS
LEASING WIRE TO TRIBUNE.

WASHINGTON, May 13.—The necessity for concerted action to relieve the freight congestion on American railroads in order to prevent serious curtailment of production, engaged the attention today of all government agencies which deal with the national arteries of transportation. Reports from important terminals agreed that the situation still threatened a slowing down of industry.

Shortage of cars was given by most authorities as principal cause of the congestion, with lack of adequate personnel and power as important contributory causes. The fact that the strike of railroad employees still was in progress in some districts had depleted train and yard crews at important gateway connections.

The committee on car service of the American Railroad association estimated 235,000 cars tied up or delayed in transit at this time.

CHILD STRUCK BY AUTO AND BRUISED

Leaving her mother's side as they were walking on East Fourteenth street this morning, Gladys Murin, 3½ years of age, ran in front of an automobile driven by Charles Chandler. Seventy-third avenue and East Fourteenth street, and sustained severe lacerations about the head when she was knocked down by the machine. The child, who resides with her parents at 1477 Seventy-fourth avenue was taken to the Emergency hospital by Chandler.

Phelan Sends Letter of Thanks to Mayor

A letter of thanks was received today by Mayor John L. Davis from Senator James D. Phelan, for the expressions of gratitude sent to the representative of California for his efforts in the naval base fight in Washington.

"And 'Oo Won't Be Naughty Any More?" Ask the Reformers

"JIMMY VALENTINE" enacted by Bert Lytell, and the members of the Ladies' Reform Society.

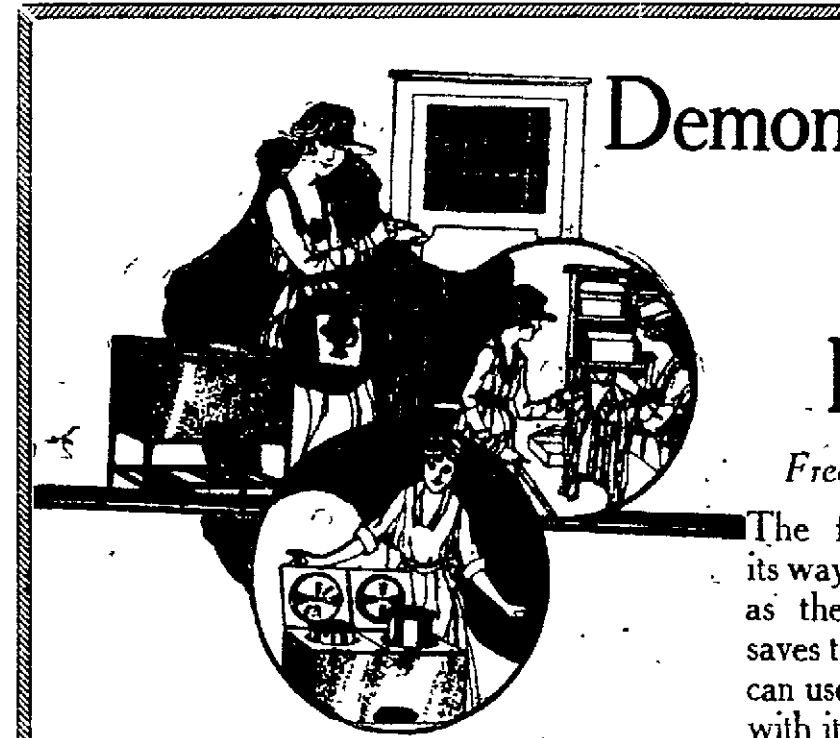

How Not to Reform Demonstrated in Play at American Theater, Declares Star.

"If you want to know how not to conduct prison reform work see 'Alias Jimmy Valentine,' advises Bert Lytell, the star of the remarkable photoplay, now playing at the American. And, incidentally—it also shows how a man can be reformed; but not by the Ladies' Welfare Club. What the Welfare Club could do for 'Jimmy' a girl did—assisted by Cupid—and then he braved jail again to save the life of a child; and only proved himself all the more a man."

That's "Jimmy" character of the internationally famous play, and Bert Lytell does a wonderful piece of acting in the play, rivaling his work as "Beauty Steele" in "The Right of Way."

On the same bill at the American is Bessie Barriale in "The Woman Who Understood."

Next Sunday comes Pauline Frederick in "The Woman in Room Thirteen" and Viola Dana in "Dangerous to Men"—Advertisement.

Demonstration ON Modern Efficiency

Free Daily All This Week

The fireless cookstove has won its way into the modern world just as the "horseless wagon." It saves time, fuel, energy. Anyone can use it and use her own recipes with it.

Domestic Science Fireless Cooker

This high-grade fireless cooker is sold in Oakland only at Breuner's. It has a steel body, a heavy seamless aluminum lining, and seamless aluminum utensils.

One-hole cookers.....\$23 and \$28.50
Two-hole cookers.....\$39.75, \$43.75 and \$47.50
Three-hole cookers.....\$62.50

The above prices include all utensils and equipment.
